Losing someone we love can leave a void and pain in our hearts that is oftentimes difficult to make sense of and heal from. Connecting to our loved ones who have passed can provide healing, closure and peace that otherwise can be elusive to us. At Good Life, we believe that mediumship is an important healing modality and are proud to offer you access to quality mediumship. Our loved ones are always with us!

### Mediumship Galleries

Sandy Waters is an evidence-based medium based out of Plymouth, MA. Sandy offers private and gallery-style mediumship readings.

Sandy discovered her gifts to connect to Spirit after the death of her father. She has dedicated herself to this work. Her hope is to provide connection and healing to those whose hearts

ache with loss. She wants each of us to know and experience that our loved ones are always with us.

### Blended Tarot Readings

Andrea Michelle began reading at age 10 after the unexpected passing of various important people in her life. Her readings are a “blend” of Tarot card readings and Mediumship. When she’s not reading, you can find her composing, performing and producing music.

During her readings, it is common for loved ones who have passed to come through. Andrea is rooted in the Tarot and considers it her first language. The cards direct her and provide information concerning health issues, career path and questions, the various relationships in your life, and so on. Her work is based on the belief

that every reading is a unique and individual experience that provides insight into all aspects of one's life. A reading can often provide a deeper understanding of the influences and dynamics happening in your life, your relationships, and how they impact your present day life.
